These are not projections, they are real results from IFS customers using IFS Connected Worker.

You've Already Built the Foundation

As an IFS Cloud customer, you've orchestrated production, assets, and supply chain on one platform.

Now extend that advantage to the last meter - the factory floor.

IFS Connected Worker isn't a standalone solution. It's the seamless extension of your IFS Cloud platform, bringing AI-powered workforce capabilities to every operator, every shift, every line.

IFS Connected Worker is the natural next evolution of your IFS Cloud investment.

The Workforce Crisis You're Facing

- Decades of tribal knowledge walking out the door
- Training costs spiraling while retention erodes
- Talent gaps widening faster than you can fill them
- Burnout accelerating across your frontline teams

Traditional training can't keep pace. You need AI-powered support.

What IFS Connected Worker Delivers

Instant Knowledge Digitization

Convert PDFs, videos, even handwritten notes into AI-powered digital work instructions. One manufacturer created 1,433 work instructions in 3 weeks - a 10x acceleration vs. manual methods.

AI-Powered Worker Assistance

Operators ask questions in natural language and get instant, validated answers - like having your best technician available 24/7, on every line.

Measurable Impact

Faster onboarding without hiring more trainers. Reduced downtime. Improved equipment effectiveness - all leading to lower costs and fewer safety incidents across your operation.

Seamless IFS Cloud Integration

One platform. One vendor. One strategic roadmap.

Start Fast. Scale Smart

As an IFS Cloud customer, you can deploy Connected Worker in weeks:

1. Digitize existing assets using AI-powered conversion
2. Enable AI assistance on priority production lines
3. Measure with familiar KPIs you already track in IFS
4. Scale across facilities as you prove ROI
