

Experience the Power of IFS Tobin Held by Production

Make Every Leasing Decision Count

IFS Tobin Held by Production (HBP) is the industry's leading AI-powered solution for instantly identifying and assessing leases held by production. Backed by nearly a century of geospatial expertise and built on 20+ years of R&D, our HBP solution gives your team the clarity and accuracy needed to evaluate every opportunity.

Why IFS Tobin HBP?

1. No More Guesswork: Instantly see which leases are held by production - no costly fieldwork or outdated records.
2. AI-Powered Accuracy: Over 95% accurate, using 20+ integrated data sources for near real-time insights.
3. Total Coverage: Up-to-date intelligence for all major U.S. oil & gas producing regions.
4. Effortless Integration: Works seamlessly with your lease and well data, plus IFS Tobin's Fee Lease, Grid, and Well layers.

What You Gain

- Increased efficiency and time savings
- More confident decisions
- A competitive advantage

Data integration

→ AI analysis

→ Map visualization

→ Confident decisions
