

For four decades and counting, IFS Excalibur has been helping accountants in U.S. E&P companies improve efficiencies and achieve greater value for increasingly complex oil and gas accounting operations.

## Key product facts

1. IFS Excalibur was started in 1979 and has become the industry standard in oil and gas accounting.
2. IFS Excalibur contains over 30 modules that address critical business requirements and workflows for oil and gas accountants.
3. IFS Excalibur has thousands of unique users, and over a hundred oil and gas organizations count on the software to expedite daily accounting functions.
4. IFS Excalibur is a comprehensive and efficient back-office solution and is the most stable oil and gas accounting system on the market today.

## Improved efficiencies

- Clearly defined process flows
- Single accounting repository
- Proven integration points

## Greater value

- Reduced risk
- Complete accounting automation
- Full management of financial performance

## Benefits

**Replaces** spreadsheets and manual, error-prone processes with best-in-class software that boasts an intuitive UI built for growth-oriented customers

**Eliminates** disparate systems and uses one robust platform to manage every type of accounting:

- Financial and revenue accounting
- Budgeting and forecasting
- Joint interest billing
- Treasury management
- Division of interest
- Land and lease management
- Interactive drilldown reporting
- State and federal regulatory reporting

**Automates** time-consuming accounting practices enabling staff to be more efficient

**Streamlines** cross-department communication allowing for faster exchange of data and information

**Delivers** a low total cost of ownership (TCO)

**Enables** predictable budgeting with monthly and annual costs that are easy to forecast

# IFS Excalibur

## Features

- Configurable software that can be implemented in 3-6 months
- Available as a cloud-based or on-premise solution
- Integration with most third-party systems/applications
- Ability to easily generate reports to analyze data
- Active and supportive user community
- Easy to learn (intuitive navigation and logical structure)
- Scalable to manage and support hundreds or tens of thousands of properties
- Provides audit and internal controls to meet the most stringent compliance requirements (GAAP, SOX)
- Helps manage capital and operational costs as well as forecast project revenue potential

## Find out more

For more information about the benefits of our end-to-end solution, visit: [www.ifs.com/excalibur](http://www.ifs.com/excalibur)

IFS develops and delivers cloud enterprise software for companies around the world who manufacture and distribute goods, build and maintain assets, and manage service-focused operations. The industry expertise of our people and of our growing ecosystem, together with a commitment to deliver value at every single step, has made IFS a recognized leader and the most recommended supplier in our sector.

## Integrations and modules

Combine these with IFS Excalibur for increased functionality and an enhanced user experience.

### Asset Tracking

Manages fixed assets, both oil and gas properties and furniture and fixtures.

### Division of Interest

Creates division orders for wells and units.

- Available as a stand-alone product
- Enables the generation of NADOA DO and TO forms

### Escheat

Automates the unclaimed property process and streamlines outstanding revenue suspense to identify potential “Escheatable” owners.

### IFS Energy & Resources – AFE

A mobile-enabled workflow and cost management system that allows for timely and accurate cost-controlled authorization for expenditures.

### IFS Energy & Resources – Land

Integrates with Land for the transfer of well and name master data, checks, and leases.

### IFS Merrick

Integrates with IFS Merrick for the transfer of well ownership master data. Volumes automatically flow from IFS Merrick to IFS Excalibur for contract marketing.

### IFS Energy & Resources – Reporting

Unites data across all solutions, enabling seamless and integrated reporting and analysis. Key reports include:

- LOS
- Payout Reporting
- AFE Budget to Actual
- Budget and Forecast

### IFS Energy & Resources – Workflow

Streamlines business processes, automates daily interactions, increases visibility, and drives efficiencies.

### SQL Reporting Access

Enables immediate access to IFS Excalibur data in either Microsoft's SQL Server or Oracle.
