

# Powering Smarter Utility Operations

## The Utility Landscape is Changing Fast

Aging infrastructure

Rising energy demand

Unpredictable weather

Evolving customer expectations

## The Solution: End-to-End Asset Lifecycle Management

[How IFS Helps](#) >

Industrial AI™ powered end-to-end asset lifecycle management solution is pivotal to help utilities adapt and respond to the evolving energy landscape. A connected platform with data-driven insights supports every phase of the asset lifecycle—from capital planning and investment to grid maintenance, crew scheduling, daily field execution, and customer communication.

Exelon is leveraging IFS software to streamline asset management, increase operational agility, and meet today's most pressing industry challenges from customer affordability to supply chain resilience.

**Hear from Exelon about leveraging AI and technology to unify utility operations and navigate through the evolving landscape.**

## Drive Smarter Utility Operations with Asset Lifecycle Management

### 1 Strategic Asset Investment

- ✓ Build a resilient, long-term asset strategy.
- ✓ Ensure better data-driven asset investment decisions.
- ✓ Resource optimization and strategic planning to focus on projects with the best RoI and alignment with business goals.

### 2 Project Plan and Execution

- ✓ Coordinate people, time, and resources for successful project delivery.
- ✓ Leverage AI to manage complex projects, control resources, track costs, and generate efficient project schedules.

### 3 Maintain, Optimize, Decommission

- ✓ Optimize asset performance with operational data and analytics.
- ✓ Set benchmarks, monitor asset health, and trigger proactive maintenance to reduce downtime.
- ✓ Use workforce management tools to respond efficiently to field demands and reduce costs.

## IFS.ai Delivering Real Results with Utilities Industry Focused Solution

- 35%** reduction in travel time
- 50%** improved planning proficiency
- 81%** better SLA compliance
- 76%** reduction in average cost per job
- 10%** improvement in first-time fix rate
